VALUE OF SERVICE MEASURED BY COMMITTEE ASSIGNMENTS.

ELOQUENCE DON'T SWAY

Legislation is Made in Committees and the Silver-Tongued Orator Has Little Opportunity in House.

(By VAN CLEVEL.)

Washington, D. C., April 8.—A casual survey of the membership of the sixty-second or any past congress presents an instructive study. In the congress of the United States, as in every other department of human industry, there has been a radical change in the methods of doing business and in the viewpoints from which men are estimated.

In the days when Webster, Clay, Calhoun, Hill, Hayne, Lincoln, Douglas, Benton and scores of others who might be mentioned, electrified the multitudes and swayed public opinion with their eloquence, the United States was a comparative infant in political and commercial importance. A lusty and promising youngster, it is true; but still an infant as compared to its present day development.

With the defects of kingdoms and empires to guide them, the political architects in the morning of our national existence drew the plans and laid the foundation of a government along new lines, and with an abiding faith in the eternal duration of justice and right, they builded wisely and well.

But the raising of the infant and the preservation of the man are different problems. In those days the transmission of news was slow and incomplete. Now the events of the world are laid at every man's door within forty-eight hours. Trails and steamboat lines have given way to public highways and railroads. In the early sixties, when congress first allowed its members mileage at the rate of 20 cents per mile, many of the members had to travel on horseback or in stage coaches for a hundred or two hundred miles from their homes to the nearest railroad. Postoffices were few, transportation slow, postage was higher and rural deliveries unknown. Information and ideas were disseminated by word of mouth and the people looked to their leaders in public affairs as public educators. The few newspapers then existing carried little but editorials and were intended more to give circulation to the editors' views than to herald the news. All this is now changed, and every good citizen reads and thinks for himself.

The thirteen colonies, with their few thousands of population, have grown to forty-eight states, and the territory of Alaska, Porto Rico, Hawaii and the Philippines, the combined population of which is more than a hundred millions. The revenues and expenses of the government are more than half a billion dollars per year. So that the government of the United States has become an enormous business institution, and the statesmanship of congress has become the statesmanship of business, sound judgment and hard work. There are but few orators in the present congress and their names are not the names that are familiar to the readers of the country at large. Martin Littleton of New York is the one really great speaker in the house, and when profound questions of law are discussed by him he commands attention. He ranks as one of the greatest lawyers in the United States, but in the real business of congress he cuts but little figure. He has the ability but he is a new member. The names of the men you all know are the names of those who have been

here long enough to work themselves slowly to the top. Uncle Joe Cannon has a service of eighteen terms to his credit, and Dalzell of Pennsylvania, the smartest Republican in congress, is serving his twelfth term; Mann, the leader of the minority, has been here fourteen years, and Payne, author of the present tariff law, has been elected to congress thirteen times.

The same situation is essentially true on the Democratic side of the house. The men who are at the top are there because they have worked hard and grown up with the work. The heads of most of the great business institutions of the country now are men who have come up from the bottom through long and arduous service. They are not more brilliant than thousands holding subordinate positions, but they have mastered the work and have learned every detail. The same is true in congress. The average new congressman, when he lands here, is as green as a city chap on his first visit to the farm. His measure is soon taken by the regulars. If he is conceited, he is squelched a few times and set back a few paces; if he is not on the square, it is soon known and his doom is sealed, so far as becoming a material factor in congressional affairs is concerned; if he is merely a four flusher, the word goes down the line that he is noisy but harmless, and it is practically "good night" for him; if he is a modest, willing worker, he is put at the foot of the class and allowed to work up. Some come up more rapidly than others, some never get very far from the foot, but they practically all go over the same route.

Champ Clark came here sixteen years ago, not a presidential prospect, but an awkward young country lawyer with a good head, an honest heart and a determination that sees in no obstacle a thing too great to be overcome. Oscar Underwood, majority leader and another presidential prospect, has served the same length of time as Mr. Clark. Fitzgerald, head of the great appropriation committee, has been here twelve years.

But to return to the Missouri delegation. Fourteen years ago we find James T. Lloyd, a young lawyer, packing his grip in the little town of Shelbyville, ten miles from a railroad, to come to congress. Mr. Lloyd wasn't a Bryan, a Vorhees nor a Vest, but he was a conscientious worker and a faithful servant of the people, and today he is one of the busiest and most important members of the house. He is chairman of the committee on accounts, second member on the committee on postoffices and post roads, one of the four most important committees of the house, and chairman of the Democratic congressional committee. Judge Shackelford of the eighth district has been here twelve years and is now a member of the committee on ways and means, an honor that comes to but few members. Judge Rucker of the Second district is likewise serving his sixth term, and is chairman of the committee on election of president, vice president and representatives in congress, and also a ranking member of the committee on the judiciary.

Although comparatively new members, Judge Alexander of the Third district, Representative Booher of the Fourth district and Representative Borland of the Fifth district have committee assignments that stamp them as valuable and dependable members of recognized worth. Mr. Booher is a ranking member of the committee on rivers and harbors, which is charged with the expenditure of many millions of dollars. He is also a prominent member of the committee on territories and of the committee on expenditures in the navy department. The committee on territories reported and conducted the legislation admitting Arizona and New Mexico to statehood, which involved a long series of hearings and lots of work. That he fully measures up to the responsibilities is further evidenced by the fact that Mr. Booher is now chairman of a sub-committee of this very important committee which is engaged in working out a plan and drafting a bill to regulate conditions and permit development in the territory of Alaska.

Alaska is in a deplorable condition. It has no territorial government, no legislature and no powers to conserve its vast resources or develop them. It has millions of tons of coal under its surface, and yet is compelled to go into the markets of Canada and elsewhere and buy coal for its own use. The Guggenheims and their allies have gobbled up the harbors, the railroad routes and almost every available thing that is liable to figure in the future development of the country. The work of encouraging development and guaranteeing protection under these conditions is extremely difficult. One

HADLEY ON JUNE 5 CURFMAN PRESIDENT

GOVERNOR TO MAKE ADDRESS AT THE ANNUAL RECEPTION.

REAL COMMUNITY LIFE

The Affair to Be Made One of the Biggest in the History of the Northwest Normal.

President H. K. Taylor of the Normal received a letter from Governor Hadley Wednesday morning, stating that he would come to Maryville on Wednesday, June 5, and that he would be pleased to deliver an address at the annual reception and open house of the Normal school.

The address will be given in the evening at the school auditorium, and Governor Hadley will talk on "Rural Community Life."

The program for the annual reception and open house will be arranged soon, and other features will be secured. Arrangements are to be made to make the affair one of the biggest in the history of the school.

The public will be invited to the open house and reception.

According to present arrangements, Governor Hadley intends to spend the day in Maryville at that time.

TO GIVE A PLAY.

St. Mary's Church Choir to Give "The Woven Web" on Tuesday Evening.

On Tuesday, April 16th, a four-act drama entitled "The Woven Web," will be staged by the members of St. Mary's church choir. Considerable interest has been shown by the participants during the past month, and they expect to make it a success. Prof. Thompson, director of the choir, and Miss Theresa Yehle will appear as Toby and Judy, and will give everybody an opportunity to have a good laugh. William Blatter, who, during the past years, was quite successful in playing the villain role in dramas staged by the Conception College Dramatic club, will in this play also take the scheming and heartless man's part. Miss Bertha Kirch, soprano soloist of the choir, will also appear in the drama, as well as in the specialties. Other members that will take part are John Gross, Hubert Zech, Paul Thompson, Anna and Anthony Blatter.

The specialties that will be given between acts consist of vocal and instrumental music.

Mrs. Mariam Lutar went to St. Joseph Wednesday morning to spend the day.

THE LUMBERMAN WILL HEAD COMMERCIAL CLUB THIS YEAR.

NO SECRETARY CHOSEN

The Matter to Be Threshed Out by the Directors—A. N. Reese Gets the Night Watchman's Place.

At the meeting of the board of directors of the Commercial club Tuesday night after the club meeting, E. C. Curfman was chosen president of the club for the ensuing year. The other officers elected were: G. L. Willey, first vice president; J. F. Hull, second vice president; Paul Sisson, treasurer. A secretary was not selected, but G. B. Roseberry will hold over until a new one is chosen.

The club meeting was fairly well attended, the principal business being the election of three directors and a merchants' night watchman. The terms of Paul Sisson, Charles McNeal and George Pickens were out at this time. The names of Paul Sisson, J. F. Hull, William F. Phares, Charles McNeal and Harry Todd were placed in nomination, and Paul Sisson, J. F. Hull and William F. Phares were elected directors for a term of three years.

For merchants' night watchman four men filed applications for the position. Robert Yeaman, Carl Riffe, George Viles and A. N. Reese were after the position, and Mr. Reese was chosen. Mr. Reese will take charge next Monday. He will make a good night watchman.

The proposition of hiring a paid secretary for the club was discussed by the members pro and con. No definite action was taken, however, but the board of directors is to consider the matter and see if it is possible to raise the money in some way to hire an outside man to fill the position of secretary. A paid secretary would mean much to the club, and a great deal more could be accomplished by having a man devote all of his time to this work than is at present.

WOLFERT FOR TREASURER.

Ed F. Wolfert Being Mentioned for the Place on the Democratic Ticket.

E. F. Wolfert of the firm of Barman & Wolfert is being urged by his friends over the county to run for the Democratic nomination for county treasurer. Mr. Wolfert has not fully decided whether he will make the race. He is well qualified and fitted for the place, and should he enter he will make a good race.

F. P. REUILLARD TO RUN.

Announced Wednesday That He Would Seek the Republican Nomination for Sheriff.

Frank P. Reuillard, who is well known over the county, announced Wednesday that he would be a candidate for the Republican nomination for sheriff. He is the first one to file for the office on the Republican ticket.

F. P. REUILLARD.

Mr. Reuillard has been a resident of Maryville for fifteen years, coming here from Iowa. He is a capable man and well fitted for the office he seeks, but as this is to be Democratic year, we feel that Mr. Reuillard will not have much chance of election. However, in case the people of the county should elect Mr. Reuillard, he will make an efficient sheriff.

GOOD FOR HARRY ALDERMAN.

His Ad Writing Will Be a Lesson for Missouri's School of Journalism.

Harry Alderman, the advertising writer for the Alderman Dry Goods company of this city, has attracted the attention of the Dana Press club of the school of journalism of the Missouri state university by the very excellent work he has been doing.

In fact, his work is so good that Missouri's school of journalism will use some of his ads as good examples of retail advertising in a bulletin it will issue soon. They were selected after a thorough study of Missouri's newspapers.

This is indeed a compliment to Mr. Alderman, and the letter the Alderman Dry Goods company received on Wednesday from this school regarding its advertising, and the one received by The Democrat-Forum the same day making inquiry as to who prepared the copy for its advertising is a distinct compliment to young Mr. Alderman. He was a student of the school of journalism at Columbia in 1909, and his ability in this line of work he has chosen is recognized by many newspaper men who have been watching the high standard the Alderman Dry Goods company maintains in its advertising.

The letters are from Mr. Harry E. Ridings of the Dana Press club and are as follows:

"Alderman Dry Goods Co., Maryville, Mo.: Gentlemen: Your advertisements appearing in The Democrat-Forum are good; they are far better than the ads usually found in papers of that size.

"I came across your ads, two or three of them, in making a study of Missouri newspapers under the direction of Dean Walter Williams of the school of journalism.

"The school is to issue soon a bulletin on retail advertising in Missouri and expects to use some of your ads as good examples."

"Editor Democrat-Forum, Maryville, Mo.: In a study of Missouri newspapers under the direction of Dean Walter Williams, I found in your paper an advertisement much better than the average small town merchant uses.

"I refer to an ad of the Alderman Dry Goods Co.

"I've wondered if the copy is prepared by you or if suggestions are given.

"In a bulletin on retail advertising in Missouri school of journalism expects to use this ad as a good example and to give the name of your paper. And, since the bulletin is designed primarily for newspaper publishers, we shall be glad to get information about any other good ads which have brought money to your paper."

Mrs. Ross Joy of Elmo came to Maryville Wednesday to visit her uncle, A. M. Hopper.

CARE FOR VISITORS

ARRANGEMENTS BEING MADE FOR TRACK MEET ENTHUSIASTS.

WILL USE CARD SYSTEM

Maryville People May Know When, How Long and for Whom They Must Provide Rooms.

Dr. Taylor, acting with the committee on arrangements, composed of T. H. Cook, Miss Helwig, Miss Hopkins, Mrs. Perrin, C. E. Wells and E. L. Harrington, is sending out a request to those who are to be here during the annual teachers' association and track meet, that they indicate the size of their delegation, exactly when they will arrive in Maryville, and exactly how long they will be here, and send this information to the committee on arrangements here as soon as possible. This committee expects to prepare within the next few days a tabulated list of the available places in town. For the convenience of those who may want to lodge some of the visitors the committee has had printed some blank post cards which indicate the details of the information desired. These cards have been left at Rainer's store, Reuillard's, Oscar-Henry drug store and at Ferritor's corner drug store. These cards should be secured at once and sent to the committee, for it is the plan to assign the visitors to certain places as soon as they send in their requests. One good feature of the plan is that the people here will be informed as to just who their visitors will be, when they will arrive, and how long they will stay, and this information will be given out just as rapidly as the committee gets it. This plan will lessen the amount of disappointment and confusion upon that occasion. Of course, it is understood that the committee will not be able to make all the assignments before the eventful days, for some visitors will no doubt fail to send in requests for assignments, but everything possible will be done for the convenience of those Maryville people who will take care of the many visitors. In case it is inconvenient to secure these cards the information might be telephoned to No. 416 Red, on the Hanama, No. 251 on the Bell, or, during school hours, to the Normal, although they would prefer that the cards be filled out.

The matter of rates must be left largely to private arrangement, and vary somewhat with the accommodations, but they are usually about \$1.00 per day. Very frequently members of the same delegation or team want to stay together, and in such cases they often do not object to several sleeping in the same room. This fact may make it possible for some to entertain a larger number of visitors.

Will Go Coon Hunting.

President H. K. Taylor of the Normal will go to Helena, Mo., Monday to deliver the commencement address before the high school graduating class Monday night. While there Mr. Taylor anticipates a good time with the superintendent of the schools of Helena, who has promised to take him out coon hunting, the first coon hunt he will have enjoyed in twenty years.

of the first essentials is a railroad into the interior, and this is under consideration.

Two of Mr. Booher's committees are very busy committees, and the importance of his assignments can be better appreciated when it is remembered that the house, with a membership of nearly four hundred, has only fifty-six committees, while the senate, with a membership of ninety-six has seventy-one. There are not only chairmanships in the senate for the majority members, but there are chairmanships for three-fourths of the entire membership. The house committees are essentially much harder worked, not only because they are fewer in number, but because the fourteen great appropriation bills and all tariff legislation must originate in the house.

The congress of the present day is a working body, and the man who makes good and does his country the greatest service is the man who applies himself to learn its vast multitude of details and best fits himself for the great responsibilities before him. And those districts are best served that stick to Representatives who have proved their ability and have been faithful to their trust.

Contract for Iowa School.

C. C. Young of Maryville has the contract for the erection of the new public school building at Lenox, Ia. His contract figure was \$25,100. The building will be 115x96 feet and will contain twelve rooms above the basement, which will have the same floor space as the rooms. Mr. Young has been busy with contracts in Creston the past year, and the last few days of the past week he finished some work on the interior of a stone cottage on the state hospital campus at Clarinda. He began the Lenox contract this week.

ENTRIES COMING IN.

Many High Schools Are Sending in Their List for Track Meet and Oratorical Contest.

Prof. V. I. Moore received from Platte City a list of their entries for the track meet. Platte City high school was third in number of points at last year's meet, but won the second cup, as the St. Joseph team was only eligible for the first cup. A few of the boys on the Platte City team that were here at the last meet will come back.

Braymer high school also sent in a list of six entries for the track meet. For the oratorical contest six high schools have entered up to the present time.

Will Take Private Study.

Miss Helen Paul, who was with the Breckinridge Stock company in January at the Empire theater, arrived in Maryville Monday night and will be at the home of Dr. and Mrs. G. A. Nash for an indefinite time. Miss Helen will take a private course of study in various branches and also music. She made her home with Dr. and Mrs. Nash for a year, about seven years ago.

Roy Wilson sports a new buggy now, which just arrived Saturday from Montgomery, Roebuck, Sear, Ward & Co. Anyhow, look out, girls, for this young man.

Arch Hubble had a stirring experience one evening last week. He undertook to cross Platte river when it was out of its banks, in an old molasses pan. When in mid-stream his boat capsized. He succeeded in climbing a tree, where he aroused the neighbors by yelling for help, and he was safely landed.

Whole Rye Food
YOU know how wholesome good German rye bread is. The sturdiest, healthiest people in the world eat it. Rye is the complete food—the kind that will do you the most good and leave the best taste in your mouth. Contains the vital elements that common oatmeal and corn flakes lack.

Cream of Rye
"EAT IT FOR HEALTH"
is soft tender flakes made from the whole rye berry with all the nourishment left in. A food to be cooked, therefore, free from the dangerous dust and germs which science denounces in ready prepared flakes, etc. Not only nourishing, but flushes the system of waste and tones up the digestive organs. The ideal breakfast food, but just as good in bread, puddings, muffins and fritters. Everybody likes it. Get it from your grocer.

Free Spoon Right in the Package
Look for the beautiful rye pattern silver plated teaspoon packed with Cream of Rye. This handsome spoon would itself cost you more than price of package. Exchangeable for other pieces of silverware if desired.

WATER COVERS 45 TOWNSHIPS

Main Levee Breaks North of Golden Lake, Ark.

AMPHITRITE IN RESCUE WORK

Task of Caring for Flood Victims Becomes Serious Problem—Over a Thousand Starving in One Place.

Memphis, Tenn., April 10.—Advices received at Memphis state that the main levee has broken a mile and a half north of Golden Lake, Ark., about 50 miles north of Memphis. The water is spreading over a wide area in that section.

Forty-five townships are partly covered by water. The town of Marked Tree, Ark., is inundated.

Warnings were flashed over the telephone lines to all portions of the section affected, in the hope that the residents would seek high ground before the water reaches them.

North of Memphis the river is falling. At Memphis the 7 a. m. reading of the gauge showed a stage 43.6, a fall of 1 in 12 hours. South of Memphis the river is rising rapidly.

The task of caring for the flood victims is proving a serious problem.

Army Has Charge at Hickman.
At Hickman approximately 2,500 persons are being cared for. Capt. Logan of the United States army has charge of the situation at that point and an agent of the Red Cross society is assisting him.

The crew of the U. S. S. Amphitrite anchored at Memphis, has received instructions to assist in rescuing flood victims. One of the Amphitrite's boats went to Wynoke to bring a party marooned abroad a raft at that point to this city.

More than 1,000 persons, nearly half of them refugees from the flood, are at Paducah, Tenn., nine miles below Tiptonville, in Lake county without meat. The one-story houses there are no longer habitable and the two-story houses are crowded. The remainder of the community is out on a hillside without shelter.

Mayor Asks More Aid.
Charleston, Mo., April 10.—Mayor George C. Burnes of Charleston sent additional appeals for aid for flood sufferers to state officials. Mississippi county suffered a great loss in live stock and growing crops when the Mississippi river topped the 80 miles of levee. Four-fifths of the county was submerged, as were parts of Scott, Pemiscot, Dunklin and New Madrid counties.

Mayor Burnes says 2,000 persons are being cared for.

Naval Reserves Called Out.
St. Louis, April 10.—On orders from Gov. Hadley all St. Louis members of the Missouri naval reserves were directed to report for duty in the flooded district near Caruthersville, Mo. The reserves will depart immediately.

SHOT MAD DOG AT CLOSE RANGE

Missouri Farmer Put Gun in Animal's Mouth to Make Sure of His Aim.

Jericho, Mo., April 10.—Clyde Evans, a farmer living near this place, exercised rare presence of mind in battling with a bulldog in the throes of rabies.

The dog attacked Evans' three-year-old child and the father ran to the rescue, carrying a shot gun. The weapon, however, was unloaded, but Evans carried ammunition with him. After thrusting the barrel of the gun into the throat of the dog and firmly impaling the animal, Evans calmly loaded the gun and pulled the trigger.

The child had been bitten before the father arrived. A mad stone was applied, adhering 45 minutes.

MISSOURIANS START LONG HIKE

Four Members of Elks Club at Brookfield Hope to Reach Portland, Ore., in July.

Brookfield, Mo., April 10.—Four members of the Elks club here began their long hike to Portland, Ore., where they expect to arrive in time to attend the national convention of Elks there in July. The four are Herman Clark, Charles Johnson, Frederick Lyon and Cecil Stone of this city. They will follow the Burlington railroad tracks as far as Billings, Mont. Dispatchers have been ordered to report the progress of the walkers.

A large crowd gathered to start the young men on their journey.

To Hold Primary April 30.

Wichita, Kan., April 10.—By a vote of 20 to 7 the Republican county central committee of Harper county decided to hold presidential primaries April 30. The county has a thriving Roosevelt club, no trouble being experienced in getting members. In one township only two men refused to sign.

Hermit Left \$10,000.

Johnston, Pa., April 10.—Joseph Campalio, and aged recluse, died here and the undertaker found \$10,000 in cash, stocks and other securities in his home. Campalio, known as "Old Joe," was believed to be in poverty.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow.

Get a 50 cent bottle from your druggist today. He will give you money back if you are not satisfied after a fair trial. Special Agent, Koch Pharmacy.

ILLINOIS VOTES FOR ROOSEVELT

Gains Fifty-Six Out of the Fifty-Eight Delegates.

HADLEY SAYS MISSOURI ALSO

Ex-President Now Has 44 votes More Than Necessary to Control Convention—Greene County Gives Taft and T. R. 21 Each.

Chicago, April 10.—It was a landslide in Illinois for Roosevelt.

The returns received from the state-wide primaries up to midnight indicate that the former president carried every congressional district except one and won the whole state by a plurality of 125,000 over President Taft.

The returns indicate that 56 out of the 58 Illinois delegates to the national convention will be instructed to vote for Col. Roosevelt. He has captured 48 of the 50 district delegates and the eight delegates-at-large will be selected by the Republican state convention and instructed for Roosevelt by the popular vote in the state at large.

Clark Beats Wilson.

Wilson was beaten by Clark and the Democratic field by 2 to 1.

Gov. Charles S. Deneen appears to have been renominated for governor by the Republicans.

The result of the Illinois primary makes a most decisive victory for Roosevelt. The direct presidential preference primary in which voters cast their ballots for their choice of presidential candidates was made a law after a special act of the Illinois legislature.

Gets Two-Thirds in Missouri.

Jefferson City, April 10.—Returns at Roosevelt state headquarters show a complete rout in Missouri for President Taft's forces. Gov. Hadley, in a private telegram to Col. Roosevelt, told him he was well satisfied he would control at least two-thirds of the delegates.

The governor said that Col. Roosevelt had 564 instructed and pledged delegates, without reference to gains made in Greene, Davies and St. Louis counties.

Greene county gave Roosevelt 21 delegates to the state convention and Taft 21. Davies county instructed its delegates in primaries for Roosevelt. In addition he has 39 delegates from split county conventions or where no instructions were given.

The convention will be composed of 1,141 delegates. Not counting the primaries just held, Col. Roosevelt at present has 45 more votes than necessary to control the state convention, with 386 votes yet to be taken into consideration.

EDITORS WELL ENTERTAINED

Kansas Association Guests of Lawrence Merchants—Addressed by Associated Press Manager.

Lawrence, Kan., April 10.—Melville E. Stone, manager of the Associated Press, addressed an open meeting of the Kansas Editorial association in Robinson gymnasium. He was heard by 3,000 university students and visitors.

Mr. Stone explained the grave responsibility which was bestowed upon the press by the first amendment to the constitution, which says that neither the freedom of speech nor the freedom of the press shall be abridged.

Tom Masson, editor of Life, told of the great influence of the people upon the newspapers. His talk was a combination of serious advice and delightful humor.

The merchants of Lawrence entertained the editors by driving them over the city in motor cars during the morning. They visited Haskell Institute and the University of Kansas. A luncheon was given the Kansas newspaper men by the girls of the domestic science department at noon.

Iowa's Saloon Law Upheld.

Des Moines, Ia., April 10.—A petition for a rehearing of the cases testing the Moon law was overruled by the Iowa supreme court. The Oskaloosa and the Fort Dodge cases, where the fight for saloons hinged on the sufficiency of the petition of consent, were lost. The saloons have no further hope of abolishing the Moon law, which limits the number of saloons to one to every 1,000 of population.

Savannah Man to Mexico.

Mexico, Mo., April 10.—The Mexico board of education elected George F. Nardin of Savannah, Mo., superintendent of the city's public schools. Mr. Nardin is 35 years old and is a graduate of Missouri university.

Jefferson City, April 10.—Leon W. Quick, city treasurer of St. Louis, filed his official announcement as a Republican candidate for governor in the primary next August.

TO CLOSE HOT SPRINGS CLUBS

SHERIFF ARMS FOUR NEW DEPUTIES WITH AXES.

Charges Have Been Filed Against Seventeen for Sunday Violations—Gamblers Alarmed.

Hot Springs, Ark., April 10.—Becoming angry because they did not get the results desired, Sheriff Hale relieved four deputy sheriffs of their commissions and announced the appointment of four other deputies to take their places. They had no specific time in which to call, but were expected to make it their business to visit the places where gambling was supposed to be going on every evening.

The sheriff by this means hoped to accomplish the ambition of his administration, which is the prevention of gambling in Hot Springs. He said that four of the fashionable clubs still were doing business.

"I intend to arm the four deputies who will be stationed on Central avenue with axes which will enable them to get into those places from which they are barred out now," said Sheriff Hale. "I intend to be ready for any and all criminal cases whatever they may be."

The first night the clubhouses all were closed. How long they will remain so is problematical. Club owners stated that the houses would remain closed until they could get a line on this new feature of the sheriff's activities. W. G. Boule, who has recently been appointed assistant prosecuting attorney, filed charges against 17 clubhouses for Sunday violations.

TO WORK FOR BETTER DRAINAGE

Conference at New Orleans to Ask Federal Aid in Draining Lowlands of South.

New Orleans, April 10.—The first national drainage congress, whose deliberations are expected to be of great importance to the entire Mississippi Valley, opened here today with several thousand delegates in attendance.

The object of the conference is the advancement of a policy calling for the aid of the federal government in the drainage of wet and overflow lands of the South, and other sections of the country, the argument being that if it is proper for the national government to expend vast sums for the irrigation of arid lands in the West, it is equally proper for the government to aid in removing the superfluous water from the fertile lowlands of the South. Such an undertaking would cost nearly \$500,000,000.

The interest this project entertains for the inhabitants of the upper Mississippi and its tributaries lies in the fact that such a drainage, according to those in charge of the convention, must be largely effected at the headwaters of the Mississippi, and of the streams contributing to its volume, by means of reservoirs acting in conjunction all over the territory drained by the river, from the Appalachians to the Rockies and from the Canadian border and the Great Lakes to the mouth of the river in the South.

Among those on the program are: W. L. Park, vice president and general manager of the Illinois Central railroad; George H. Maxwell, the drainage expert; and other men of prominence in engineering and civil life.

CHURCH USES MOVING PICTURES

Wichita Methodists Give Tickets for Prompt Attendance at Sunday School.

Wichita, Kan., April 10.—The First Methodist church of Wichita will use moving pictures to increase the Sunday school membership. Tickets will be given to Sunday school scholars who are on time every Sunday. Those late and non-members will be charged five cents admission. The pictures are to be shown Wednesday nights and will be of humorous, historical, educational and dramatic subjects.

A Marine Heir to \$58,000.

Philadelphia, April 10.—Thomas Sutton, who enlisted in the United States marine corps at Kansas City four years ago and was stationed there three years, coming to the Philadelphia barracks one year ago, received word that he was heir to \$58,000 left to him by James Beeson of Paducah, Ky. He declared that he likes the service so much he will not leave it.

Titanic on Her Maiden Voyage.

London, April 10.—Carrying many prominent persons, the liner Titanic of the White Star Line, than which there is no larger vessel afloat, sailed from Southampton today on her maiden voyage bound for New York. The Titanic, which is of 45,000 tons displacement, is sister ship to the Olympic.

Washington, April 10.—The printing reorganization bill, which, it is said, will save a million dollars a year for the government, passed the senate with several important amendments. The house has not yet considered it.

Texas Will Kill 60 Goats.

Langtry, Tex., April 10.—News just brought in from the Zuberhuler ranch, near here, is that half accompanying heavy rain killed 60 grown Angora goats and 320 kids. The hail was the heaviest in years.

GEN. AINSWORTH IS EXONERATED

Committee on Military Affairs Defends Former Adjutant General.

DISCREDITS CHIEF OF STAFF

Language Used in Report Seldom Exceeded in Severity by a State Document—Charges Conspiracy.

Washington, April 10.—In a report which impugns the motives of the president of the United States, challenges the veracity of Secretary Stimson and discredits the ability and experience of Gen. Leonard Wood, chief of staff, the house committee on military affairs came to the defense of former Adj. Gen. Fred C. Ainsworth and charges that a conspiracy between Stimson and Wood forced Ainsworth out of office at a time when his services were most needed by his country. In severity of language the report has seldom, perhaps never, been exceeded by a state paper.

The report carries all the letters that passed between Ainsworth and Stimson and is fully 10,000 words in volume.

Prejudged the Case.

Secretary Stimson is charged with having committed a "great and irreparable wrong" and a "flagrant misuse of official authority" when, last February, he suspended Gen. Ainsworth from his duties as adjutant general of the army and charged him with insubordination. That the president and Secretary Stimson prejudged the case; that the accusations against the general were based upon prejudice, and that the secretary of war has an "erroneous idea" of his relation to congress, are some of the other conclusions reached by a majority of the committee, of which Representative Hay of Virginia is chairman.

Report Follows Investigation.

Following Gen. Ainsworth's relief from duty, and when a court-martial seemed probable, the president permitted him to retire from the army because of his long service. The report follows an investigation of Ainsworth's relief from duty set afoot by a resolution by Representative Watkins of Louisiana.

The majority of the committee concludes that Gen. Ainsworth was guilty of no act which justified the letter of suspension from Secretary Stimson, and "that the charges had origin in a determination to drive Gen. Ainsworth from active service, and have nothing to support them but bare assertion, coupled with misrepresentation and suppression of the truth."

"Hidden Motive" Charged.

The report says that it is "incredible of belief" that Secretary Stimson believed Gen. Ainsworth guilty of the charges, and it is pointed out that General Ainsworth favored the five-year enlistment plan in the army bill, which was opposed by other officers of the general staff, and that Secretary Stimson's letter of suspension to the general was sent the day that this feature of the bill was being discussed in the house.

ATCHISON THEATERS UNSAFE

Five Managers Arrested for Failure to Comply with State Safety Law.

Atchison, Kan., April 10.—The owners of four moving picture houses and the managers of the Atchison theater were arrested charged with failure to comply with the state law which provides for the safety of theater patrons. Narrow aisles, poor ventilation and defective electric wiring were some of the things wrong with the picture houses. W. L. O'Brien, the state factory inspector who caused the arrests, says the Atchison theater should be condemned, as it is a fire trap. It was erected in 1883.

More Missouri Seed Tests.

Columbia, Mo., April 10.—More than one-fourth of all the seed corn planted in Missouri this year will be tested, according to estimates made by the state board of agriculture. This is much more than ever before in the history of the state, but it is thought that the situation this year demands the testing of practically all the seed, to insure a good corn crop.

Fine Armour in Weight Case.

Farago, N. D., April 10.—The Armour Packing company was fined \$100 here for selling lard in pails under weight, in violation of the state pure food law, which requires actual weight to be printed on the containers. An appeal will be taken and if the fine is sustained the Armour company will withdraw from the lard trade in this state.

A Cave Man's Estate Saved.

Macon, Mo., April 10.—The case of David M. Jones against the estate of John G. Jones, the murdered hermit of the Chautauque valley, a claim for \$500 for board and lodging during the winter, was disallowed by a jury in the probate court. The estate put on witnesses to show that the cave man worked to pay his board, and that he had never owed anyone.

VALUE OF SERVICE MEASURED BY COMMITTEE ASSIGNMENTS.

ELOQUENCE DON'T SWAY

Legislation is Made in Committees and the Silver-Tongued Orator Has Little Opportunity in House.

(By VAN CLEVELAND)

Washington, D. C., April 8.—A casual survey of the membership of the sixty-second or any past congress presents an instructive study. In the congress of the United States, as in every other department of human industry, there has been a radical change in the methods of doing business and in the viewpoints from which men are estimated.

In the days when Webster, Clay, Calhoun, Hill, Hayne, Lincoln, Douglas, Benton and scores of others who might be mentioned, electrified the multitudes and swayed public opinion with their eloquence, the United States was a comparative infant in political and commercial importance. A lusty and promising youngster, it is true, but still an infant as compared to its present day development.

With the defects of kingdoms and empires to guide them, the political architects in the morning of our national existence drew the plans and laid the foundation of a government along new lines, and with an abiding faith in the eternal duration of justice and right, they builded wisely and well.

But the raising of the infant and the preservation of the man are different problems. In those days the transmission of news was slow and incomplete. Now the events of the world are laid at every man's door within forty-eight hours. Trails and steamboat lines have given way to public highways and railroads. In the early sixties, when congress first allowed its members mileage at the rate of 20 cents per mile, many of the members had to travel on horseback or in stage coaches for a hundred or two hundred miles from their homes to the nearest railroad. Postoffices were few, transportation slow, postage was higher and rural deliveries unknown. Information and ideas were disseminated by word of mouth and the people looked to their leaders in public affairs as public educators. The few newspapers then existing carried little but editorials and were intended more to give circulation to the editors' views than to herald the news. All this is now changed, and every good citizen reads and thinks for himself.

The thirteen colonies, with their few thousands of population, have grown to forty-eight states, and the territory of Alaska, Porto Rico, Hawaii and the Philippines, the combined population of which is more than a hundred millions. The revenues and expenses of the government are more than half a billion dollars per year. So that the government of the United States has become an enormous business institution, and the statesmanship of congress has become the statesmanship of business, sound judgment and hard work. There are but few orators in the present congress and their names are not the names that are familiar to the readers of the country at large. Martin Littleton of New York is the one really great speaker in the house, and when profound questions of law are discussed by him he commands attention. He ranks as one of the greatest lawyers in the United States, but in the real business of congress he cuts but a little figure. He has the ability but he is a new member. The names of the men you all know are the names of those who have been

here long enough to work themselves slowly to the top. Uncle Joe Cannon has a service of eighteen terms to his credit, and Dalzell of Pennsylvania, the smartest Republican in congress, is serving his twelfth term; Mann, the leader of the minority, has been here fourteen years, and Payne, author of the present tariff law, has been elected to congress thirteen times.

The same situation is essentially true on the Democratic side of the house. The men who are at the top are there because they have worked hard and grown up with the work. The heads of most of the great business institutions of the country now are men who have come up from the bottom through long and arduous service. They are not more brilliant than thousands holding subordinate positions, but they have mastered the work and have learned every detail. The same is true in congress. The average new congressman, when he lands here, is as green as a city chap on his first visit to the farm. His measure is soon taken by the regulars. If he is conceited, he is squelched a few times and set back a few paces; if he is not on the square, it is soon known and his doom is sealed, so far as becoming a material factor in congressional affairs is concerned; if he is merely a four flusher, the word goes down the line that he is noisy but harmless, and it is practically "good night" for him; if he is a modest, willing worker, he is put at the foot of the class and allowed to work up. Some come up more rapidly than others, some never get very far from the foot, but they practically all go over the same route.

Champ Clark came here sixteen years ago, not a presidential prospect, but an awkward young country lawyer with a good head, an honest heart and a determination that sees in no obstacle a thing too great to be overcome. Oscar Underwood, majority leader and another presidential prospect, has served the same length of time as Mr. Clark. Fitzgerald, head of the great appropriation committee, has been here twelve years.

But to return to the Missouri delegation. Fourteen years ago we find James T. Lloyd, a young lawyer, packing his grip in the little town of Shelbyville, ten miles from a railroad, to come to congress. Mr. Lloyd wasn't a Bryan, a Vorhees nor a Vest, but he was a conscientious worker and a faithful servant of the people, and today he is one of the busiest and most important members of the house. He is chairman of the committee on accounts, second member on the committee on postoffices and post roads, one of the four most important committees of the house, and chairman of the Democratic congressional committee. Judge Shackelford of the eighth district has been here twelve years and is now a member of the committee on ways and means, an honor that comes to but few members. Judge Rucker of the Second district is likewise serving his sixth term, and is chairman of the committee on election of president, vice president and representatives in congress, and also a ranking member of the committee on the judiciary.

Although comparatively new members, Judge Alexander of the Third district, Representative Booher of the Fourth district and Representative Borland of the Fifth district have committee assignments that stamp them as valuable and dependable members of recognized worth. Mr. Booher is a ranking member of the committee on rivers and harbors, which is charged with the expenditure of many millions of dollars. He is also a prominent member of the committee on territories and of the committee on expenditures in the navy department. The committee on territories reported and conducted the legislation admitting Arizona and New Mexico to statehood, which involved a long series of hearings and lots of work. That he fully measures up to the responsibilities is further evidenced by the fact that Mr. Booher is now chairman of a subcommittee of this very important committee which is engaged in working out a plan and drafting a bill to regulate conditions and permit development in the territory of Alaska.

Alaska is in a deplorable condition. It has no territorial government, no legislature and no powers to conserve its vast resources or develop them. It has millions of tons of coal under its surface, and yet is compelled to go into the markets of Canada and elsewhere and buy coal for its own use. The Guggenheims and their allies have gobbled up the harbors, the railroad routes and almost every available thing that is liable to figure in the future development of the country. The work of encouraging development and guaranteeing protection under these conditions is extremely difficult. One

HADLEY ON JUNE 5 CURFMAN PRESIDENT

GOVERNOR TO MAKE ADDRESS AT THE ANNUAL RECEPTION.

REAL COMMUNITY LIFE NO SECRETARY CHOSEN

The Affair to Be Made One of the Biggest in the History of the Northwest Normal.

President H. K. Taylor of the Normal received a letter from Governor Hadley Wednesday morning, stating that he would come to Maryville on Wednesday, June 5, and that he would be pleased to deliver an address at the annual reception and open house of the Normal school.

The address will be given in the evening at the school auditorium, and Governor Hadley will talk on "Rural Community Life."

The program for the annual reception and open house will be arranged soon, and other features will be secured. Arrangements are to be made to make the affair one of the biggest in the history of the school.

The public will be invited to the open house and reception.

According to present arrangements, Governor Hadley intends to spend the day in Maryville at that time.

TO GIVE A PLAY.

St. Mary's Church Choir to Give "The Woven Web" on Tuesday Evening.

On Tuesday, April 16th, a four-act drama entitled "The Woven Web," will be staged by the members of St. Mary's church choir. Considerable interest has been shown by the participants during the past month, and they expect to make it a success. Prof. Thompson, director of the choir, and Miss Theresa Yehle will appear as Toby and Judy, and will give everybody an opportunity to have a good laugh. William Blatter, who, during the past years, was quite successful in playing the villain role in dramas staged by the Conception College Dramatic club, will in this play also take the scheming and heartless man's part. Miss Bertha Kirch, soprano soloist of the choir, will also appear in the drama, as well as in the specialties. Other members that will take part are John Gross, Hubert Zech, Paul Thompson, Anna and Anthony Blatter.

The specialties that will be given between acts consist of vocal and instrumental music.

Mrs. Mariam Lutar went to St. Joseph Wednesday morning to spend the day.

THE LUMBERMAN WILL HEAD COMMERCIAL CLUB THIS YEAR.

The Matter to Be Threshed Out by the Directors—A. N. Reese Gets the Night Watchman's Place.

At the meeting of the board of directors of the Commercial club Tuesday night after the club meeting, E. C. Curfman was chosen president of the club for the ensuing year. The other officers elected were: G. L. Wilfley, first vice president; Paul Sisson, second vice president; Paul Sisson, treasurer. A secretary was not selected, but G. B. Roseberry will hold over until a new one is chosen.

The club meeting was fairly well attended, the principal business being the election of three directors and a merchants' night watchman. The terms of Paul Sisson, Charles McNeal and George Pickens were out at this time. The names of Paul Sisson, J. F. Hull, William F. Phares, Charles McNeal and Harry Todd were placed in nomination, and Paul Sisson, J. F. Hull and William F. Phares were elected directors for a term of three years.

For merchants' night watchman four men filed applications for the position. Robert Yeaman, Carl Riffe, George Viles and A. N. Reese were after the position, and Mr. Reese was chosen. Mr. Reese will take charge next Monday. He will make a good night watchman.

The proposition of hiring a paid secretary for the club was discussed by the members pro and con. No definite action was taken, however, but the board of directors is to consider the matter and see if it is possible to raise the money in some way to hire an outside man to fill the position of secretary. A paid secretary would mean much to the club, and a great deal more could be accomplished by having a man devote all of his time to this work than is at present.

WOLFERT FOR TREASURER.

Ed F. Wolfert Being Mentioned for the Place on the Democratic Ticket.

E. F. Wolfert of the firm of Barmann & Wolfert is being urged by his friends over the county to run for the Democratic nomination for county treasurer. Mr. Wolfert has not fully decided whether he will make the race. He is well qualified and fitted for the place, and should be entered he will make a good race.

F. P. REUILLARD TO RUN.

Announced Wednesday That He Would Seek the Republican Nomination for Sheriff.

Frank P. Reuillard, who is well known over the county, announced Wednesday that he would be a candidate for the Republican nomination for sheriff. He is the first one to file for the office on the Republican ticket.

F. P. REUILLARD.

Mr. Reuillard has been a resident of Maryville for fifteen years, coming here from Iowa. He is a capable man and well fitted for the office he seeks, but as this is to be Democratic year, we feel that Mr. Reuillard will not have much chance of election. However, in case the people of the county should elect Mr. Reuillard, he will make an efficient sheriff.

GOOD FOR HARRY ALDERMAN.

His Ad Writing Will Be a Lesson for Missouri's School of Journalism.

Harry Alderman, the advertising writer for the Alderman Dry Goods company of this city, has attracted the attention of the Dana Press club of the school of journalism of the Missouri state university by the very excellent work he has been doing.

In fact, his work is so good that Missouri's school of journalism will use some of his ads as good examples of retail advertising in a bulletin it will issue soon. They were selected after a thorough study of Missouri's newspapers.

This is indeed a compliment to Mr. Alderman, and the letter the Alderman Dry Goods company received on Wednesday from this school regarding its advertising, and the one received by The Democrat-Forum the same day making inquiry as to who prepared the copy for its advertising is a distinct compliment to young Mr. Alderman. He was a student of the school of journalism at Columbia in 1909, and his ability in this line of work he has chosen is recognized by many newspaper men who have been watching the high standard the Alderman Dry Goods company maintains in its advertising.

The letters are from Mr. Harry E. Ridings of the Dana Press club and are as follows:

"Alderman Dry Goods Co., Maryville, Mo.: Gentlemen: Your advertisements appearing in The Democrat-Forum are good; they are far better than the ads usually found in papers of that size.

"I came across your ads, two or three of them, in making a study of Missouri newspapers under the direction of Dean Walter Williams of the school of journalism.

The school is to issue soon a bulletin on retail advertising in Missouri and expects to use some of your ads as good examples."

"Editor Democrat-Forum, Maryville, Mo.: In a study of Missouri newspapers under the direction of Dean Walter Williams, I found in your paper an advertisement much better than the average small town merchant uses.

"I refer to an ad of the Alderman Dry Goods Co.

"I've wondered if the copy is prepared by you or if suggestions are given.

"In a bulletin on retail advertising in Missouri school of journalism expects to use this ad as a good example and to give the name of your paper. And, since the bulletin is designed primarily for newspaper publishers, we shall be glad to get information about any other good ads which have brought money to your paper."

Mrs. Ross Joy of Elmo came to Maryville Wednesday to visit her uncle, A. M. Hopper.

CARE FOR VISITORS

ARRANGEMENTS BEING MADE FOR TRACK MEET ENTHUSIASTS.

WILL USE CARD SYSTEM

Maryville People May Know When, How Long and for Whom They Must Provide Rooms.

Dr. Taylor, acting with the committee on arrangements, composed of T. H. Cook, Miss Helwig, Miss Hopkins, Mrs. Perrin, C. E. Wells and E. L. Harrington, is sending out a request to those who are to be here during the annual teachers' association and track meet, that they indicate the size of their delegation, exactly when they will arrive in Maryville, and exactly how long they will be here, and send this information to the committee on arrangements here as soon as possible. This committee expects to prepare within the next few days a tabulated list of the available places in town. For the convenience of those who may want to lodge some of the visitors the committee has had printed some blank post cards which indicate the details of the information desired. These cards have been left at Rainer's store, Reuillard's, O'ear-Henry drug store and at Ferritor's corner drug store. These cards should be secured at once and sent to the committee, for it is the plan to assign the visitors to certain places as soon as they send in their requests. One good feature of the plan is that the people here will be informed as to just who their visitors will be, when they will arrive, and how long they will stay, and this information will be given out just as rapidly as the committee gets it. This plan will lessen the amount of disappointment and confusion upon that occasion. Of course, it is understood that the committee will not be able to make all the assignments before the eventful days, for some visitors will no doubt fail to send in requests for assignments, but everything possible will be done for the convenience of those Maryville people who will take care of the many visitors. In case it is inconvenient to secure these cards the information might be telephoned to No. 416 Red, on the Hanama, Ne. 251 on the Bell, or, during school hours, to the Normal, although they would prefer that the cards be filled out.

The matter of rates must be left largely to private arrangement, and vary somewhat with the accommodations, but they are usually about \$1.00 per day. Very frequently members of the same delegation or team want to stay together, and in such cases they often do not object to several sleeping in the same room. This fact may make it possible for some to entertain a larger number of visitors.

Will Go Coon Hunting.

President H. K. Taylor of the Normal will go to Helena, Mo., Monday to deliver the commencement address before the high school graduating class Monday night. While there Mr. Taylor anticipates a good time with the superintendent of the schools of Helena, who has promised to take him out coon hunting, the first coon hunt he will have enjoyed in twenty years.

of the first essentials is a railroad into the interior, and this is under consideration.

Two of Mr. Booher's committees are very busy committees, and the importance of his assignments can be better appreciated when it is remembered that the house, with a membership of nearly four hundred, has only fifty-six committees, while the senate, with a membership of ninety-six has seventy-one. There are not only chairmanships in the senate for the majority members, but there are chairmanships for three-fourths of the entire membership. The house committees are essentially much harder worked, not only because they are fewer in number, but because the fourteenth great appropriation bills and all tariff legislation must originate in the house.

The congress of the present day is a working body, and the man who makes good and does his country the greatest service is the man who applies himself to learn its vast multitude of details and best fits himself for the great responsibilities before him. And those districts are best served that stick to Representatives who have proved their ability and have been faithful to their trust.

Contract for Iowa School.

C. C. Young of Maryville has the contract for the erection of the new public school building at Lenox, Ia. His contract figure was \$25,100. The building will be 115x96 feet and will contain twelve rooms above the basement, which will have the same floor space as the rooms. Mr. Young has been busy with contracts in Creston the past year, and the last few days of the past week he finished some work on the interior of a stone cottage on the state hospital campus at Clarinda. He began the Lenox contract this week.

ENTRIES COMING IN.

Many High Schools Are Sending in Their List for Track Meet and Oratorical Contest.

Prof. V. I. Moore received from Platte City a list of their entries for the track meet. Platte City high school was third in number of points at last year's meet, but won the second cup, as the St. Joseph team was only eligible for the first cup. A few of the boys on the Platte City team that were here at the last meet will come back.

Braymer high school also sent in a list of six entries for the track meet. For the oratorical contest six high schools have entered up to the present time.

Will Take Private Study.

Miss Helen Paul, who was with the Breckinridge Stock company in January at the Empire theater, arrived in Maryville Monday night and will be at the home of Dr. and Mrs. G. A. Nash for an indefinite time. Miss Helen will take a private course of study in various branches and also music. She made her home with Dr. and Mrs. Nash for a year, about seven years ago.

Here From Delaware.

Mr. and Mrs. Howard M. Strain and son and daughter of Wilmington, Del., are in Maryville on a visit to Mr. Strain's sister, Mrs. John Rickman, and family. Mr. Strain left Maryville thirteen years ago for Delaware, and this is his first visit to Maryville since. He and his family expect to locate in the west. Mr. Strain has been employed in the paper mills of Wilmington.

Left for Colorado.

Miss Mary McNellis, who has been visiting her parents, Mr. and Mrs. P. J. McNellis, for the past four months, returned to her employment in a department school at Colorado Springs, Col., Wednesday morning. Miss McNellis secured leave of absence from her position in Colorado to go to Dakota, where she secured a government claim and proved up on it four months ago.

Will Assist in Ceremonies.

Captain Charles Hyslop, C. C. Hellmers, Albert Kuchs, W. F. Phares and Wellington Dusenberry went to St. Joseph Wednesday morning to assist in the ceremonies at the convocation of the Ancient and Accepted Scottish Rite of Freemasonry.

Monday Evening Recital.

The program at the Monday evening's recital at the Conservatory hall was given by Misses Mildred Shinabargar, Laura and Helen Curfman, Lola Wright, Esther Dietz, Flo Masters and Dorothy McDonald, who gave piano numbers. Miss Gertrude Wright sang "Gray Days," by Noel Johnson.

Surprised by W. R. C.

Mrs. Elizabeth Funk was given a post card shower at the meeting of the W. R. C. last Saturday afternoon as a surprise, and it was so successful that she was unable to speak a word. Mrs. Funk has been a member of the corps for nine years and has held office each year except the present one. Besides having held the office of president of the corps she has been district president, and is highly esteemed throughout the district.

RAISING MONEY FOR ELEVATOR.

Some \$1,500 Have Been Subscribed for the Hospital Elevator—More Is Needed.

Nic Sturm and C. J. Alderman have been circulating a subscription paper this week in Maryville for the St. Francis hospital elevator fund. Up to the present time \$1,500 has been raised.

The hospital is badly in need of a new elevator, and the people should help them out in this worthy cause. A new elevator and installing same will cost in the neighborhood of \$2,500.

HER NOSE WAS BROKEN.

Graham School Girl Met With Painful Accident at School Tuesday Afternoon.

Allice Welling, the ten year old daughter of Mr. and Mrs. Fred Welling of Graham, suffered a broken nose, Tuesday afternoon while playing ball at school. She attempted to catch a base ball when it struck her full in the face. Dr. H. S. Rowlett and Dr. Findley of Graham attended to the little girl's injuries.

THAT BAD COLD.

Vapor Treatment Surely Does Clean Out That Stuffed Up Head in Record Breaking Time.

Don't try to break up a cold with dangerous stomach disturbing drugs. Get directly to the inflamed membrane by breathing Hyomei (pronounce it High-o-me). Get a bottle for 50 cents at the Orear-Henry Drug company and try this rapid and economical treatment that thousands are using.

Into a bowl of boiling water put a teaspoonful of Hyomei, cover head and bowl with a towel, and breathe deep into the lungs the healing vapor that arises.

Breathe this vapor for five or ten minutes until the head feels fine and clear, then go to bed and sleep soundly until morning. No cocaine or opium or harmful drugs in Hyomei. It is guaranteed to end catarrh, or money back.

There will be a pie social at Mt. Airy church 4 miles east of Maryville, Thursday night, April 11th. Everybody invited.

Miss Blanch Messick of Bolckow came to Maryville Tuesday and will be the guest of Dr. and Mrs. W. H. Brown until Thursday morning, when she will return to attend the funeral of her grandmother, Mrs. Dudley Messick, at 10 o'clock that night.

Misses Martha Koch, Ora Barmann and Frances Keeler, who have been spending the Easter vacation with their parents in this city, returned to their studies at Sacred Heart convent in St. Joseph Wednesday evening.

Mrs. Gooley Griffey of Burlington Junction was a city visitor Wednesday, and also visited her daughter, Miss Norva, who attends school here and makes her home with Mrs. E. R. Belcher.

Mr. and Mrs. Charles Moore, who have been living on a farm nine miles east of the city, moved into the Kuchs flats, on East Third street, the first of the week.

Mr. and Mrs. Dennis Sherlock and son returned to their home in St. Joseph Tuesday evening from an Easter visit with Mr. Sherlock's relatives, living north of the city.

Mrs. C. I. McCorkle of Hopkins was in the city Wednesday, returning home from a visit with her daughter, Mrs. Clara Browning of Burlington Junction.

PLATTE VALLEY.

Now is the time to drag your roads. Let us get to work, neighbors, and help keep up the roads.

John Nelson is painting Fay Harmon's house this week.

Fay Harmon and wife were visiting at John McKee's Sunday.

Olle Breit and wife spent Sunday visiting in Guilford.

Nels Marshall and wife of Bedford visited at W. H. Ivie's in Guilford Saturday and Sunday.

T. A. Ivie and wife went to Independence, Mo., Sunday to attend the Latter Day Saints conference this week.

Mrs. Maria Nelson and Mrs. James Hansen went to Independence last Friday to attend the Latter Day Saints conference.

W. B. Torrance was sowing oats Monday. Not many oats are being sowed here in the valley this spring.

What looks very nice in place. In some fields on top of hills, where the

snow had blown off, the wheat is killed.

W. B. Torrance left Tuesday for Independence, Mo., to attend the Latter Day Saints general conference this week.

Mrs. John Kent and children, from east of Guilford, and Mrs. D. I. Warnick of near Whitesville, visited their parents, Mr. and Mrs. E. Halfhill, Sunday and Monday.

At the school meeting on April 2 Dan Skidmore was elected to succeed himself as director for three years and O. J. Neely was elected for two years, to fill out Jim Tett's term. The board organized on Wednesday by selecting Dan Skidmore president and W. B. Torrance clerk.

M. B. Fuller and family visited at Mitt Wilson's Sunday.

C. C. Nelson, wife and daughter visited in Guilford with their daughters Emma and Bertha, the telephone operators.

The Guilford Telephone association is going to rig up a meeting room in the upper part of their office building, where they can hold all of the meetings of the executive board and also the board of directors.

Dick Nelson and family visited Sunday afternoon at Mrs. Shore's.

William Gerald and E. Halfhill were hauling hay Saturday from Fred Miller's, near Cawood.

Roy Wilson sports a new buggy now, which just arrived Saturday from Montgomery, Roebuck, Sear, Ward & Co. Anyhow, look out, girls, for this young man.

Arch Hubble had a stirring experience one evening last week. He undertook to cross Platte river when it was out of its banks, in an old molasses pan. When in mid-stream his boat capsized. He succeeded in climbing a tree, where he aroused the neighbors by yelling for help, and he was safely landed.

Whole Rye Food

YOU know how wholesome good German rye bread is. The sturdiest, healthiest people in the world eat it. Rye is the complete food—the kind that will do you the most good and leave the best taste in your mouth. Contains the vital elements that common oatmeal and corn flakes lack.

Cream of Rye

"EAT IT FOR HEALTH"

is soft tender flakes made from the whole rye berry with all the nourishment left in. A food to be cooked, therefore, free from the dangerous dust and germs which science denounces in ready prepared flakes, etc. Not only nourishing, but flushes the system of waste and tones up the digestive organs. The ideal breakfast food, but just as good in bread, puddings, muffins and fritters. Everybody likes it. Get it from your grocer.

Free Spoon Right in the Package

Look for the beautiful rye pattern silver plated teaspoon packed with Cream of Rye. This handsome spoon would itself cost you more than price of package. Exchangeable for other pieces of silverware if desired.

WATER COVERS

45 TOWNSHIPS

Main Levee Breaks North of Golden Lake, Ark.

AMPHITRITE IN RESCUE WORK

Task of Caring for Flood Victims Becomes Serious Problem—Over a Thousand Starving in One Place.

Memphis, Tenn., April 10.—Advices received at Memphis state that the main levee has broken a mile and a half north of Golden Lake, Ark., about 50 miles north of Memphis. The water is spreading over a wide area in that section.

Forty-five townships are partly covered by water. The town of Marked Tree, Ark., is inundated.

Warnings were flashed over the telephone lines to all portions of the section affected, in the hope that the residents would seek high ground before the water reaches them.

North of Memphis the river is falling. At Memphis the 7 a. m. reading of the gauge showed a stage 43.6, a fall of 1 in 12 hours. South of Memphis the river is rising rapidly.

The task of caring for the flood victims is proving a serious problem.

Army Has Charge at Hickman.

At Hickman approximately 2,500 persons are being cared for. Capt. Logan of the United States army has charge of the situation at that point and an agent of the Red Cross society is assisting him.

The crew of the U. S. S. Amphitrite anchored at Memphis, has received instructions to assist in rescuing flood victims. One of the Amphitrite's boats went to Wynoke to bring a party marooned abroad a raft at that point to this city.

More than 1,000 persons, nearly half of them refugees from the flood, are at Edgely, Tenn., nine miles below Tiptonville, in Lake county without meat. The one-story houses there are no longer habitable and the two-story houses are crowded. The remainder of the community is out on a hillside without shelter.

Mayor Asks More Aid.

Charleston, Mo., April 10.—Mayor George C. Burnes of Charleston sent additional appeals for aid for flood sufferers to state officials. Mississippi county suffered a great loss in live stock and growing crops when the Mississippi river topped the 80 miles of levee. Four-fifths of the county was submerged, as were parts of Scott, Pemiscot, Dunklin and New Madrid counties.

Mayor Burnes says 2,000 persons are being cared for.

Naval Reserves Called Out.

St. Louis, April 10.—On orders from Gov. Hadley all St. Louis members of the Missouri naval reserves were directed to report for duty in the flooded district near Caruthersville, Mo. The reserves will depart immediately.

SHOT MAD DOG AT CLOSE RANGE

Missouri Farmer Put Gun in Animal's Mouth to Make Sure of His Aim.

Jericho, Mo., April 10.—Clyde Evans, a farmer living near this place, exercised rare presence of mind in battling with a bulldog in the throes of rabies.

The dog attacked Evans' three-year-old child and the father ran to the rescue, carrying a shot gun. The weapon, however, was unloaded, but Evans carried ammunition with him. After thrusting the barrel of the gun into the throat of the dog and firmly impaling the animal, Evans calmly loaded the gun and pulled the trigger. The child had been bitten before the father arrived. A mad stone was applied, adhering 45 minutes.

MISSOURIANS START LONG HIKE

Four Members of Elks Club at Brookfield Hope to Reach Portland, Ore., in July.

Brookfield, Mo., April 10.—Four members of the Elks club here began their long hike to Portland, Ore., where they expect to arrive in time to attend the national convention of Elks there in July. The four are Herman Clark, Charles Johnson, Frederick Lyon and Cecil Stone of this city. They will follow the Burlington railroad tracks as far as Billings, Mont. Dispatchers have been ordered to report the progress of the walkers. A large crowd gathered to start the young men on their journey.

To Held Primary April 30.

Wichita, Kan., April 10.—By a vote of 20 to 7 the Republican county central committee of Harper county decided to hold presidential primaries April 30. The county has a thriving Roosevelt club, no trouble being experienced in getting members. In one township only two men refused to sign.

Hermit Left \$10,000.

Johnstown, Pa., April 10.—Joseph Campaigo, and aged recluse, died here and the undertaker found \$10,000 in cash, stocks and other securities in his home. Campaigo, known as "Old Joe," was believed to be in poverty.

FALLING HAIR.

Itching Scalp and Dandruff are Unnecessary.

If you want to prevent baldness stop falling hair and itching scalp, and banish every trace of dandruff from your scalp, get a large 50 cent bottle of Parian Sage today.

You never used a more delightful hair dressing in all your life. Every drop in the bottle is filled with hair growing virtue.

Parian Sage causes the hair to grow profusely and imparts to it a luster and radiance that cannot fail to attract favorable comment.

It is guaranteed by the Koch Pharmacy to stop falling hair, itching scalp and dandruff, or money back. It kills the dandruff germ and keeps the hair full of life and youthful vigor. Large bottle 50 cents at the Koch Pharmacy and druggists everywhere. The girl with the Auburn hair is on every bottle and carton.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow.

Get a 50 cent bottle from your druggist today. He will give your money back if you are not satisfied after a fair trial. Special Agent, Koch Pharmacy.

ILLINOIS VOTES FOR ROOSEVELT

Gains Fifty-Six Out of the Fifty-Eight Delegates.

HADLEY SAYS MISSOURI ALSO

Ex-President Now Has 44 votes More Than Necessary to Control Convention—Greene County Gives Taft and T. R. 21 Each.

Chicago, April 10.—It was a landslide in Illinois for Roosevelt.

The returns received from the state-wide primaries up to midnight indicate that the former president carried every congressional district except one and won the whole state by a plurality of 125,000 over President Taft.

The returns indicate that 56 out of the 58 Illinois delegates to the national convention will be instructed to vote for Col. Roosevelt. He has captured 48 of the 50 district delegates and the eight delegates-at-large will be selected by the Republican state convention and instructed for Roosevelt by the popular vote in the state at large.

Clark Beats Wilson. Wilson was beaten by Clark and the Democratic field by 2 to 1.

Gov. Charles S. Deneen appears to have been renominated for governor by the Republicans.

The result of the Illinois primary makes a most decisive victory for Roosevelt. The direct presidential preference primary in which voters cast their ballots for their choice of presidential candidates was made a law after a special act of the Illinois legislature.

Gets Two-Thirds in Missouri.

Jefferson City, April 10.—Returns at Roosevelt state headquarters show a complete rout in Missouri for President Taft's forces. Gov. Hadley, in a private telegram to Col. Roosevelt, told him he was well satisfied he would control at least two-thirds of the delegates. The governor said that Col. Roosevelt had 564 instructed and pledged delegates, without reference to gains made in Greene, Daviess and St. Louis counties.

Greene county gave Roosevelt 21 delegates to the state convention and Taft 21. Daviess county instructed its eight delegates in primaries for Roosevelt. In addition he has 39 delegates from split county conventions or where no instructions were given. The convention will be composed of 1,141 delegates. Not counting the primaries just held, Col. Roosevelt at present has 45 more votes than necessary to control the state convention, with 386 votes yet to be taken into consideration.

EDITORS WELL ENTERTAINED

Kansas Association Guests of Lawrence Merchants—Addressed by Associated Press Manager.

Lawrence, Kan., April 10.—Melville E. Stone, manager of the Associated Press, addressed an open meeting of the Kansas Editorial association in Robinson gymnasium. He was heard by 3,000 university students and visitors.

Mr. Stone explained the grave responsibility which was bestowed upon the press by the first amendment to the constitution, which says that neither the freedom of speech nor the freedom of the press shall be abridged.

Tom Masson, editor of Life, told of the great influence of the people upon the newspapers. His talk was a combination of serious advice and delightful humor.

The merchants of Lawrence entertained the editors by driving them over the city in motor cars during the morning. They visited Haskell Institute and the University of Kansas. A luncheon was given the Kansas newspaper men by the girls of the domestic science department at noon.

Iowa's Saloon Law Upheld.

Des Moines, Ia., April 10.—A petition for a rehearing of the case testing the Moon law was overruled by the Iowa supreme court. The Oklahoma and the Fort Dodge cases, where the fight for saloons hinged on the sufficiency of the petition of consent, were lost. The saloons have no further hope of abolishing the Moon law, which limits the number of saloons to one to every 1,000 of population.

Savannah Man to Mexico.

Mexico, Mo., April 10.—The Mexico board of education elected George F. Nardin of Savannah, Mo., superintendent of the city's public schools. Mr. Nardin is 35 years old and is a graduate of Missouri university.

Coffeyville Bonds Carried.

Coffeyville, Kan., April 10.—A \$120,000 bond issue for increasing capacity of the city water plant and adding a filtration plant carried by a 6 to 1 vote in a special election. The vote was 1,282 for to 280 against.

Quick Files as Candidate.

Jefferson City, April 10.—Leon W. Quick, city treasurer of St. Louis, filed his official announcement as a Republican candidate for governor in the primary next August.

TO CLOSE HOT SPRINGS CLUBS

SHERIFF ARMS FOUR NEW DEPUTIES WITH AXES.

Charges Have Been Filed Against Seventeen for Sunday Violations—Gamblers Alarmed.

Hot Springs, Ark., April 10.—Becoming angry because they did not get the results desired, Sheriff Hale relieved four deputy sheriffs of their commissions and announced the appointment of four other deputies to take their places. They had no specific time in which to call, but were expected to make it their business to visit the places where gambling was supposed to be going on every evening.

The sheriff by this means hoped to accomplish the ambition of his administration, which is the prevention of gambling in Hot Springs. He said that four of the fashionable clubs still were doing business.

"I intend to arm the four deputies who will be stationed on Central avenue with axes which will enable them to get into those places from which they are barred out now," said Sheriff Hale. "I intend to be ready for any and all criminal cases whatever they may be."

The first night the clubhouses all were closed. How long they will remain so is problematical. Club owners stated that the houses would remain closed until they could get a line on this new feature of the sheriff's activities. W. G. Boule, who has recently been appointed assistant prosecuting attorney, filed charges against 17 clubhouses for Sunday violations.

TO WORK FOR BETTER DRAINAGE

Conference at New Orleans to Ask Federal Aid in Draining Lowlands of South.

New Orleans, April 10.—The first national drainage congress, whose deliberations are expected to be of great importance to the entire Mississippi Valley, opened here today with several thousand delegates in attendance.

The object of the conference is the advancement of a policy calling for the drainage of wet and overflow lands of the South, and other sections of the country, the argument being that if it is proper for the national government to expend vast sums for the irrigation of arid lands in the West, it is equally proper for the government to aid in removing the superfluous water from the fertile lowlands of the South. Such an undertaking would cost nearly \$500,000,000.

The interest this project entertains for the inhabitants of the upper Mississippi and its tributaries lies in the fact that such a drainage, according to those in charge of the convention, must be largely effected at the headwaters of the Mississippi, and of the streams contributing to its volume, by means of reservoirs acting in conjunction all over the territory drained by the river, from the Appalachians to the Rockies and from the Canadian border and the Great Lakes to the mouth of the river in the South.

CHURCH USES MOVING PICTURES

Wichita Methodists Give Tickets for Prompt Attendance at Sunday School.

Wichita, Kan., April 10.—The First Methodist church of Wichita will use moving pictures to increase the Sunday school membership. Tickets will be given to Sunday school scholars who are on time every Sunday. Those late and non-members will be charged five cents admission. The pictures are to be shown Wednesday nights and will be of humorous, historical, educational and dramatic subjects.

A Marine Heir to \$58,000.

Philadelphia, April 10.—Thomas Sutton, who enlisted in the United States marine corps at Kansas City four years ago and was stationed there three years, coming to the Philadelphia barracks one year ago, received word that he was heir to \$58,000 left to him by James Beson of Paducah, Ky. He declared that he likes the service so much he will not leave it.

Titanic on Her Maiden Voyage.

London, April 10.—Carrying many prominent persons, the liner Titanic of the White Star Line, than which there is no larger vessel afloat, sailed from Southampton today on her maiden voyage bound for New York. The Titanic, which is of 45,000 tons displacement, is sister ship to the Olympic.

Washington, April 10.—The printing reorganization bill, which, it is said, will save a million dollars a year for the government, passed the senate with several important amendments. The house has not yet considered it.

Texas Hail Killed Goats.

Langtry, Tex., April 10.—News just brought in from the Embury ranch, near here, is that hail accompanying heavy rain killed 50 grown Angora goats and 320 kids. The hail was the heaviest in years.

GEN. AINSWORTH IS EXONERATED

Committee on Military Affairs Defends Former Adjutant General.

DISCREDITS CHIEF OF STAFF

Language Used in Report Seldom Exceeded in Severity by a State Document—Charges Conspiracy.

Washington, April 10.—In a report which impugns the motives of the president of the United States, challenges the veracity of Secretary Stimson and discredits the ability and experience of Gen. Leonard Wood, chief of staff, the house committee on military affairs came to the defense of former Adj. Gen. Fred C. Ainsworth and charges that a conspiracy between Stimson and Wood forced Ainsworth out of office at a time when his services were most needed by his country. In severity of language the report has seldom, perhaps never, been exceeded by a state paper.

The report carries all the letters that passed between Ainsworth and Stimson and is fully 10,000 words in volume.

Prejudged the Case.

Secretary Stimson is charged with having committed a "great and irreparable wrong" and a "flagrant misuse of official authority" when, last February, he suspended Gen. Ainsworth from his duties as adjutant general of the army and charged him with insubordination. That the president and Secretary Stimson prejudged the case; that the accusations against the general were based upon prejudice, and that the secretary of war has an "erroneous idea" of his relation to congress, are some of the other conclusions reached by a majority of the committee, of which Representative Hay of Virginia is chairman.

Report Follows Investigation.

Following Gen. Ainsworth's relief from duty, and when a court-martial seemed probable, the president permitted him to retire from the army because of his long service. The report follows an investigation of Ainsworth's relief from duty set afoot by a resolution by Representative Watkins of Louisiana.

The majority of the committee concludes that Gen. Ainsworth was guilty of no act which justified the letter of suspension from Secretary Stimson, and "that the charges had origin in a determination to drive Gen. Ainsworth from active service, and have nothing to support them but bare assertion, coupled with misrepresentation and suppression of the truth."

"Hidden Motive" Charged.

The report says that it is "incredible of belief" that Secretary Stimson believed Gen. Ainsworth guilty of the charges, and it is pointed out that General Ainsworth favored the five-year enlistment plan in the army bill, which was opposed by other officers of the general staff, and that Secretary Stimson's letter of suspension to the general was sent the day that this feature of the bill was being discussed in the house.

ATCHISON THEATERS UNSAFE

Five Managers Arrested for Failure to Comply With State Safety Law.

Atchison, Kan., April 10.—The owners of four moving picture houses and the managers of the Atchison theater were arrested charged with failure to comply with the state law which provides for the safety of theater patrons. Narrow aisles, poor ventilation and defective electric wiring were some of the things wrong with the picture houses. W. L. O'Brien, the state factory inspector who caused the arrests, says the Atchison theater should be condemned, as it is a fire trap. It was erected in 1883.

More Missouri Seed Tests.

Columbia, Mo., April 10.—More than one-fourth of all the seed corn planted in Missouri this year will be tested, according to estimates made by the state board of agriculture. This is much more than ever before in the history of the state, but it is thought that the situation this year demands the testing of practically all the seed, to insure a good corn crop.

Fine Armour in Weight Case.

Fargo, N. D., April 10.—The Armour Packing company was fined \$100 here for selling lard in pails under weight, in violation of the state pure food law, which requires actual weight to be printed on the containers. An appeal will be taken and if the fine is sustained the Armour company will withdraw from the lard trade in this state.

A Cave Man's Estate Saved.

Macon, Mo., April 10.—The case of David M. Jones against the estate of John C. Jones, the murdered hermit of the Chamilton valley, a claim for \$830 for board and lodging during the winter, was disallowed by a jury in the probate court. The estate put on witnesses to show that the cave man worked to pay his board, and that he had never owed anyone.
